

TABLES**Table 1.** Responses by students to an online survey.

Statement	Agree	Disagree	Don't Know
As a student, please indicate whether you agree or disagree with the following statements:			
SNNAP is user friendly and easy to use.	82% (9)	0% (0)	18% (2)
Using SNNAP improved my understanding of neuroscience.	82% (9)	0% (0)	18% (2)
SNNAP increased my interest in neuroscience.	50% (5)	20% (2)	30% (3)
Computer simulations were helpful in my studies of neuroscience.	60% (6)	10% (1)	30% (3)
I would like to take a more advanced course in the use and application of SNNAP.	50% (5)	20% (2)	30% (3)
SNNAP is amenable to undergraduate courses.	70% (7)	0% (0)	30% (3)
SNNAP is amenable to graduate courses.	60% (6)	0% (0)	40% (4)

These data relate only to those portions of the survey in which respondents identified themselves as students. The number of responses is indicated in the parenthesis next to each percentage score. Respondents were not required to address each statement. The complete survey, which includes additional questions for instructors (see Table 2) and researchers (not shown), can be viewed at the SNNAP web site.
